

GROMACS - Bug #103

Possible problems in g_sas

08/29/2006 08:55 PM - David van der Spoel

Status: Closed	
Priority: High	
Assignee: David van der Spoel	
Category: analysis tools	
Target version: 3.3.1	
Affected version - extra info:	Difficulty: uncategorized
Affected version:	
Description	
There may be a problem in g_sas for the computation of volumes or areas.	

History

#1 - 09/07/2007 01:10 PM - David van der Spoel

Areas are identical in 3.2.1 and newer versions.

#2 - 09/21/2007 02:02 PM - David van der Spoel

Fixed a SEGV today, when indices where used and the subset of atoms did not start at 0.
