Gerrit received a related patchset '1' for Issue #1189.

If the error message is considered a fix, I suggest creating a (related) issue with target 5.x that actually fixes the bug.

I think the commit should Refs this issue, and we should clear the target until someone declares intent to fix it, per policy. Less work than opening and closing issues. If someone wants a fix, they need to do it, or ask normally. :-)
