Description

https://gerrit.gromacs.org/#/c/3115/ will be accepted, but we need to complete the clean-up of code orphaned in so doing. David plans some work developing ctest-based tests for some analysis tools, which should support doing the right thing here the right way. Please see discussion there.

Associated revisions

Revision b5daddfb - 04/02/2014 05:21 PM - David van der Spoel

Removed possibility of compiling with GSL.

Cleanup up of programs that are not functioning well anyway will be done in conjunction with a move to the new analysis framework. Removed g_kinetics.
