

GROMACS - Task #2481

Update gmx report-methods to write more method information

04/17/2018 04:52 PM - Mark Abraham

Status:	New
Priority:	Low
Assignee:	
Category:	analysis tools
Target version:	2021-infrastructure-stable
Difficulty:	uncategorized
Description	
If someone wants to adopt this, it does sound like a useful thing so that GROMACS users can generate templated text for their Methods sections for publications.	
But if not then I think we should remove it for GROMACS 2019 rather than have something rather incomplete and out of date. Or at least not bundle it into gmx check along with several other unrelated things.	

History

#1 - 04/30/2018 10:43 AM - Gerrit Code Review Bot

Gerrit received a related patchset '1' for Issue [#2481](#).

Uploader: Paul Bauer (paul.bauer.q@gmail.com)

Change-Id: gromacs~master~lff69af1529ed307f281f51c04977354ee8175a44

Gerrit URL: <https://gerrit.gromacs.org/7816>

#2 - 09/19/2018 03:03 PM - Mark Abraham

I think we resolved this but didn't refer to the redmine, right paul?

#3 - 09/20/2018 07:43 AM - Paul Bauer

- Subject changed from *gmx check -m writes latex methods section, but has not been kept up to date to Update gmx report-methods to write more method information*

- Target version changed from 2019 to 2020

I don't think this is resolved yet, the tool has been ported but the information is still incomplete (see Magnus comments on gerrit).

I renamed the issue to better reflect what should be done and pointed it to 2020 (not sure if it is still possible to finish it before the beta).

#4 - 12/02/2019 01:22 PM - Paul Bauer

- Target version changed from 2020 to 2021-infrastructure-stable
