

GROMACS - Task #2787

allow passing flags to allocateDeviceBuffer

12/03/2018 01:54 PM - Szilárd Páll

Status:	New	
Priority:	Normal	
Assignee:		
Category:	mdrun	
Target version:		
Difficulty:	simple	
Description		
In order to allow the memory allocation flag modernization to be implemented across the entire code (partially done for #2193), allocateDeviceBuffer should take an extra argument so code that already uses the API can be passed the right device or host access flags.
