

Support Platforms - Bug #2935

redmine issue updates about gerrit uploads stopped working

04/26/2019 01:01 PM - Szilárd Páll

Status: New	
Priority: High	
Assignee:	
Category: Redmine	
Target version: current	
Affected version - extra info:	Affected version: current
Description Possibly related to the gerrit upgrade. Should also consider whether the upstream version of the script has improved?	
Related issues: Related to Support Platforms - Task #1264: Updating Redmine issue statuses fr... Closed 05/24/2013

Any update on this? Will anybody look into this?

#3 - 06/11/2019 09:51 AM - Mark Abraham

I don't know how to look into this.

@Christian, do you remember where we should look for something we should update for this script?

#4 - 06/11/2019 09:55 AM - Rossen Apostolov

I don't know how to look into this.

Maybe this update would work: <https://github.com/solent/redmine-gerrit-scripts> ?

#5 - 06/11/2019 01:42 PM - Christian Wennberg

My memory from the modification/update to the original script is unfortunately lacking, I think Rossen supplied me with the base framework and I just did small modifications to add the functionality that we wanted at the time, so I'm not sure from where it originated.
