

## GROMACS - Feature #3425

Feature # 3417 (New): Make modular simulator feature-complete

### Implement rerun for the modular simulator

03/10/2020 11:57 PM - Pascal Merz

<b>Status:</b>	New	
<b>Priority:</b>	Normal	
<b>Assignee:</b>	Pascal Merz	
<b>Category:</b>	mdrun	
<b>Target version:</b>	2021-infrastructure-stable	
<b>Difficulty:</b>	uncategorized	
<b>Description</b>		
Rerun should be available for the modular simulator. Ideally, this would be done by simply replacing the propagator by a mechanism to read frames from file, to keep the mdrun and rerun code paths as identical as possible.
