**Description**

Hi,

It seems as CMake installs the libraries in /usr/lib, not /usr/lib64 on ppc64. Could you have a look at this?

Closed 10/09/2010

**Associated revisions**

Revision d5c5abd9 - 06/09/2014 09:35 PM - Rossen Apostolov

Install libraries in correct directories on multiarch systems.

NB: this patch may change the default install dirs on some systems, and will not overwrite previous installations. Thus make sure to link to the correct library versions of e.g. libgromacs.

Fixes #591 and #623.
