

GROMACS - Task #2202

stop using cute abbreviations in help files

06/08/2017 06:23 PM - Chris Neale

Status:	Closed
Priority:	Low
Assignee:	Berk Hess
Category:	
Target version:	2018
Difficulty:	uncategorized
Description	
For example, gmx traj has the text "-[no]mol Index contains molecule numbers iso atom numbers" where I guess iso means instead of.	
Hard enough for anyone to figure out if they have not encountered it before. Basically impossible for people less familiar with the english language. We should use full words that can be looked up in a dictionary wherever possible.	
This text exists in 5.1.2 and also a recent git pull.

Revision 043bc715 - 06/09/2017 07:34 PM - Berk Hess

Replace iso by instead of

Replaced "iso" by "instead of" in all user-facing text.

Fixes #2202.

Agreed (I wasn't aware iso was used in user facing text).

I found "iso" also in gmx_hbond and gmx_cluster.

Are there more cute abbreviations?

#2 - 06/09/2017 04:20 PM - Justin Lemkul

There is another in a fatal error about .hdb files:

```
gmxpreprocess/h_db.cpp:    gmx_fatal(FARGS, "Error in hdb file %s:\nWrong number of control atoms (%d iso %d) on line:\n%s\n", fn, hack->nctl, ncontrol[hack->tp], line);
```

Yes, a proper grep also gave that one.

I fixed them all now.
