TNG trajectory library - Bug #2250

tng_io-configVersion.cmake: has no version

09/15/2017 11:08 PM - Christoph Junghans

Status: Closed
Priority: Normal
Assignee: Magnus Lundborg
Category:
Target version:
Affected version -
extra info: 1.8.0

Affected version: version 1

Description

When building tng standalone tng_io-configVersion.cmake has no version in it:

```bash
$ head -1 cmake/tng_io-configVersion.cmake
set(PACKAGE_VERSION "")
```

The problem is due to the fact that TNG_IO_VERSION gets set in TNG_GENERATE_VERSION_H(), but not globally. And
parent_scope TNG_GENERATE_VERSION_H() makes it only visible in add_tng_io_library(), but not globally.

There are main ways to fix this, one would to set version globally with

```bash
project(TNG_IO VERSION 1.8.0)
```
