

GROMACS - Bug #2557

make_gromos_rtp.py has a syntax error

06/20/2018 10:10 PM - Logan Dahlquist

Status: Closed	
Priority: Normal	
Assignee:	
Category: preprocessing (pdb2gmx,grompp)	
Target version: 2018.3	
Affected version - extra info: 2018.2	Difficulty: simple
Affected version: 2018.2	
Description	
<p>The script make_gromos_rtp.py has a syntax error and is missing a ',' on line 126. The line reads</p> <pre>print >> sys.stderr "Could not find string",string,"in list of length",len(list)</pre> <p>normally, however the correct syntax is</p> <pre>print >> sys.stderr, "Could not find string",string,"in list of length",len(list)</pre> <p>by adding the comma after sys.stderr. While this wasn't a huge issue to fix, I hope that it can be updated so that others who download the package do not run into the same issue.</p> <p>Thanks, Logan</p>	

Associated revisions

Revision 72d0d53f - 07/29/2018 03:00 PM - Kevin Boyd

Fixed syntax error in make_gromos_rtp.py

Didn't affect the resulting rtp if everything else was in order, just prevented an error message.
