Description
The decision to move the current CI infrastructure running on Jenkins to run on Gitlab means that the build matrices and other builds need to be converted to Gitlab jobs.

This issue is aimed to collect sub tasks to refer to the different jobs that need to be converted.

Subtasks:
- Task # 3275: Document Gitlab CI instead of Jenkins and releng
- Task # 3331: Run physical validation tests in Gitlab
- Task # 3415: Port Pre-submit matrix to Gitlab CI
- Task # 3416: Port post-submit matrix to Gitlab CI

Associated revisions
Revision a6158f30 - 12/28/2019 05:58 PM - Paul Bauer
Change releng to give information about Gitlab

Started with converting the information for releng into information for Gitlab when build can not find the releng repository.
